

## Insulation Piercing Connector

### Medium Voltage Covered Conductor

### Description

The watertight shear head bolt connector is designed for medium voltage covered conductor utilizing non-tension aluminum to aluminum connections without the need to strip the conductor.

### Technical Data

#### General

Conductor Range:	1/0 - 500 kcmil
Conductor Diameter:	0.72 - 1.15"
Jacket Thickness:	0.165"
Weight:	2.29 lbs
Tightening Torque:	26.5 - 29.5 ft-lb
Voltage:	15 kV

### Product Information

#### Product Code

SLW27.26

#### Features

- - special tools
- Watertight and corrosion resistant
- No tape or cover required
- )
