

Mechanical Connector

Medium Voltage Underground Conductor

Description

The mechanical connector is designed to connect two underground bare conductor where no mechanical tension exists.

Technical Data

General

Conductor Range: 500 - 1000 kcmil
/ 0.76 - 0.99"
Voltage Rating: 36kV

Product Information

Product Code

C1000MSB6

Features

- Suitable for aluminum or copper conductor
- Designed to withstand corrosion
- Uniformity of material
- Equipped with shear-head bolts for smooth finish
