4. FIRST AID MEASURES**4.1 Description of first aid measures**

General advice: Show this safety data sheet to the doctor in attendance.

Inhalation: Remove the person to fresh air and keep comfortable for breathing. Place unconscious person on their side in the recovery position and ensure breathing can take place. Get medical attention if symptoms are severe or persist.

Skin contact: Remove/Take off immediately all contaminated clothing. Wash skin with soap and water. Get medical attention if irritation persists after washing.

Eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if symptoms occur.

Ingestion: Rinse mouth. Maintain an open airway. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms are severe or persist.
